if his serene Highness, the Honorable the Setary of the Navy was now approachable? The individual opened his eyes in profound azement. "Sir, can I see Mr. Baacrott?" "Now it for it till to clock he is very busy widgenen one by one, sir; after dat till three o'clock, so open to de public in gineral. He is talking one gentlemen now, sir; and dare is jes eleven to before you in de nex room—walk in, sir." declined, and returning by the White House, ed of the polite Martin Raunahan, if the Presit could be seen. "You can go up, sir, but as to ing him, it is another question, for there are a re or two up stairs already." We modestly detend adding to the number of the President's saday morning visiters, and taking the route of Treasury Department, which presented an unal scene of bustle and activity, among comers igoers, we came down to Coleman's in time for the, with a whole regiment of mail contractors of office expectants.

Ar Elisworth, it is said, resigns the Patent Office is so, you may rely upon it, it is from sheer impulsion. Hon. Thos. L Hamer, of Ohio, is last named successor of this post. There are ceral other expectants, to-wit: Mr. Bidlack, of (some say, Mr. J. G. Clinton, of N. Y.) or two ex-members from the Jarsies; Judge uglass, of Illinois, (who is now in town.) and dary other members and ex-members of Conse. Some persons are foolish enough to imate that Judge Tappan's punctual visits to the esident have something to do with the future minissioner of the Patent Office. We will better that on the State of Illinois, against any other ate, for this appointment.

The ien hour system, it is reported, is about to enforced in the various departments here, in ad of the existing six hour rule. The bare rumor sereated quite a stir of displeasure among the ince-holders, who protest against the invasion of the rights; while the office-seekers are of the plication of the ten hour plan should be expelled stanter.

We hear, further, that the President contemptes.

cation of the ten hour plan should be expelled nater.

The hear, further, that the President contemple, at an early day, making a personal detour he departments—bureau by bureau, and desk lesk—to ascertain the duties, services and caties of the incumbents, severally and collective. Now, this is another good idea. Whether Capt. intends to question his various subordinates ically, your deponent saith not. We think, ever, that he will discover, especially in the difficult of the necessity of retrenchment. One-th of the clerks in this bureau could be dised with, without detriment to the public inst. Still, we protest against any diminution of es, now that they are in such demand.

This deligate.

## Philadelphia. [Correspondence of the Herald ] PHILADELPHIA, April 15, 1845.

cene was enacted at the meeting last night in the ponding bill to re-charter the Girard Bank. ctors of the meeting, having ascertained that s of the bill, backed by their bullies, intended reate disturbance, concluded to put off the same—par-iarly as there was no time for their proceedings to ean effect upon the Legislature, and as it had also

secretary of their meeting. An organization shore effected in the street, a chairman was upon a barber's stand, to indicate that he was on put all shaving operations under foot.—were made and resolutions passed. Those who for the purpose of preventing any action adherence the purpose of preventing any action adherence in the recharter, tried to put the resolutions lamour, but they were cut-voted, and being a personally by the chairman were afraid to extremities in producing a disturbance. They of well-known black legs, some of whom hold ich they received from the Tyler Administrathey were led on by a late official personago, informed you some time since, as having purthousand shares of Girard stock, when the up to \$12. He has burned his fingers, and desperate effort to procure a recharter.—In the same category, were also active.—In the same category, were also active.—In the same category, were also active.—In the case is filled with smoke from the fires in by which we are surrounded. This smoke hundreds of miles in all directions; from the wamp to the South 1 from the Pottsville Region to the South West; from the Pottsville Region to the South West; from the Pottsville Region to the South West; from the Pottsville Region to the South was and present the same at the later has a tenlarm the timid and superstitious.

Were disappointed last night at the closing of it street theatre. Large numbers want for the fwitnessing the production of Fashion, but on at the theatre, they found all dark, and large posted, informing them that owing to the indistit we actors the piece was postpaned and the sed till Wednesday. Considerable chagrin was and many ill-natured remarks made, attributing to produce the piece te almost every other imause but the one indicated by the manager. In the well and Burton profited by the closing of ishment, for people having made uptheir minds are the marker, would not be disappointed, and controlled the without he begin to be regular in a production. There is a great deal of genuine was and peop

The Circus closes shortly, and the popular clown takes the first of a series of closing benefits. The Fakir of Ava has concluded his public soirces in this city. I know not whether his next place is New York or Baltimore.

A large meeting of the citizens to devise means to relieve the sufferers by the Pittsburg fire, has just been held at the Exchange. Resolutions have been passed, and a committee appointed to collect subscriptions. It is rumored that the calamity will fall heavily on all our in surance Companies, and that two of them at least must go by the board. If but two fail, I think we will be lucky, all things considered. At all events, it has a disasterous effect on our business.

The ultimate face of the Girard Bank bill, can be seen in the fall of that stock since yesterday—down \$21. There is also a general decline in the other stocks, in part owing to the state of the New York markets. State 5's continue to fall as the session of the Legislature draws to a close. A faw days will decide as to the payment of the August interest.

DR MARSHALL HALL'S
Cordial Removator.

DR MARSHALL HALL, one of the most celebrated thysicians in Europe, is the discoverer of this valuable medicine. It is now used in his practice among the nobility of England and throughout the continent of Europe, and in every parame where used according to directions, has produced the most happy results. It not only restores the functions of life, but is exclusively directed to the care of such complaint as arise from a disorganization of the generative organs. It is a gentlestimulant ond renovator of the impared faculties of life, whether constitutional or acquired loss of sexual power and debibty, arising from syphilitud sease. It will afford decided relief to those who, by early indulgence in solitary habits, have weakened the powers of their system, and fallen mio a state of chronic debility, by which the constitution is left in a deplorable condition, and that nervous mentality kept up which places the individual in a state of anxiety during the remainder of life. The consequences arising from this diagerous practice are not confined to its pure physical result, but branch to moral onesconstitutional weakness, sexual debility, brought on by a secret habit indulged in by young mea. This is, when too frequently indulged in, the greatest evil that can befall man. Dysepsia, weakness of the limbs, and small of the back, coofusion of intellect, forgetfulness, palpitation of the heart, aversion to society, consumption, emaciation, are the symptoms of this disease. FOR THE PILES.

UNIVERSAL COMMENDATION—From every city, town and village where Dr. Upham's YEACHTABLE FILE ELECTUARY has been introduced, the most gratifying intelligence of its excellent effects have been received by the proprietor. In hundreds of instances it has triumphed over cases which were deemed incurable.

READ THE FOLLOWING REMARKABLE CASES. A gentleman from Brooklyn, Long Island, after using two boxes of the Electuary, gave me the following account:—When I obtained the medicine I was suffering severely from an attack of the Files, and for two months had been affired with severe headache, accompanied by a distressing sensation at the stomach, and the same were always dry and busky. The medicine removed the Files, cured the headache and distress at the stomach, and created a natural verspiration over the whole body, and I am now in better health than I have been for years.

A gentleman who had long been subjected to Files, suffering intensely from their continuance, informed Mr. Mitchell, 265 Bowery, N. Y., that their complete removal was effected by the true of the Vegetable Electuary. This individual had tested all the cajobrated external applications, each being attended with the stance of the Vegetable Electuary. This individual had tested all the cajobrated external applications, each being attended with which the Electuary thas stained in base the high reputation which the Electuary has attained in base the high reputation which the Electuary has attained in base to high reputation which the Electuary has attained in base to high reputation which the Electuary has attained in base to high reputation which the Electuary has attained in base to high reputation in the stomach and howels, and to pe 'if the blood—and also and the reputation of the local and also made and howels, and to pe 'if the blood—and also having made agreet variety of medicine. I believe this to be superior to all others.
